EUROGRIP CAR SHOOTING

The Topcrane Ghost One is one of the most advanced cranes on the market. This crane is designed and built with performance, efficiency and safety in mind. The Topcrane Ghost One boasts an impressive payload of 36kg / 80lb. It can be used on vehicles with a speed of up to 160 km/h. The topcrane is extremely suitable for all types of weather and terrain conditions.

The Topcrane Ghost One is designed to be powefull and durable, and yet lightweight and mobile.It is also designed with one goal in mind, capturing the perfect shot. The Topcrane Ghost One is the only universal remote arm with a Phantom Stabilization Algorithm and a two gyro-driven motor feedback system that performs thousands of counter calculations per second. The arm is controlled by a small joystick and the video signal can be sent via cable from the camera or routed through the arm into the car using a wireless video system.
