

The Hotshot is a professional pan and tilt head, fully equipped with 24 -channel slip rings in the pan movement, very strong quiet engines, limit switches and high -quality electronics. This head is the smaller version of the Headead II with the extra that it can be provided with a 3rd axis. The Hotshot is a professional remote controlled head that is specially designed for TV productions. All hotshot operating elements such as Zoom, Focus, Joystick, Crank handles or Panbar control, fully adjustable speed control, electronic dampening, cabling and accessories are compatible with the Hothead system.
